Problems

with typical brokerages

Large initial investment needed for proper trading.

Trading requires involvement and is not a passive activity.

Sub-par trade execution speeds are disadvantageous.

Large spreads and commissions on trades negatively affect traders.

Large transaction fees and tedious deposit and withdrawal process for traders.

Passive trading

Vittaverse offers exceptional copy trading capabilities through its cTrader platform, providing passive trading opportunities via an engine that emulates the activity of leading traders across various asset classes and risk tolerances.

No-Fee challenge

Vittaverse addresses the challenge of requiring a large investment to begin trading by providing a no-fee trading challenge, allowing traders to demonstrate their aptitude and receive significant funding, starting at \$25,000 USD.

Our Solutions

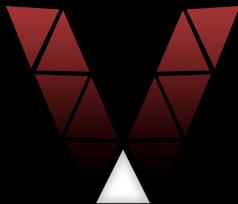

Withdrawals

Vittaverse provides fast and free deposits and withdrawals for its users.

Execution speed

Vittaverse boasts industry-leading trade execution speeds, facilitated by state-of-the art servers.

Affiliate Program

VITTAVERSE

Vittaverse invites qualified individuals to join as an Introducer Broker (IB), providing them with the opportunity to earn competitive commissions by introducing active members to our trading platform. This collaboration enables Vittaverse members to work closely with our team while generating continuous commissions. Furthermore, it enables them to offer their network, including friends, family, and community members, the chance to earn both passive and active income through our platform.

Trading Challenge

Vittaverse is pleased to offer the most lucrative trading challenge available online.

The trading challenge is completely free, and there is no fee to sign up! Just deposit a minimum of \$100 USD and you are automatically enrolled in the trading challenge!

Competitive terms when compared to other prop firm trading challenges.

Unlimited free retries.

Stage 01

Vittaverse Challenge

This is the first step of our evaluation process. It is completely free, and you trade with your own capital. You can start with as little as \$100 USD. There is no fee to participate in the challenge. Prove your trading skills and make it to the Verification stage!

Stage 02

Vittaverse Verification

You've made it passed the Vittaverse Challenge successfully. Now prove that your trading skills have depth and longevity through the Vittaverse Verification. Once you pass this stage, you will be offered to trade officially as a Vittaverse Trader.

Trading Challenge

	Vittaverse Challenge Step 1	Verification Stage Step 2
Trading Period	30 days	60 days
Minimum Trades	15	45
Maximum Daily Drawdown	5%	5%
Maximum Drawdown	10%	10%
Profit Target	≤8%	≤6%
Repeat	Yes	Yes

Trading Challenge Scaling Plan

Vittaverse is pleased to offer a tiered scaling plan to the traders that successfully pass the Challenge and Verification stages. This means that the cooperation between Vittaverse and successful traders will develop over time and continue to strengthen as time goes on.

A higher account balance allows the trader to scale their positions, however they must maintain a strong risk management approach within their trading strategy.

Tier plan at a glance

Profit split begins at
• 70% Trader,
• 30% VITTAVERSE

Constant increases as long as the eligibility criteria continues to be met.

Trading objectives do not change with time.

Scale up potential to \$500,000 / trader.

3 Months incremental increase

Incremental increases to each trader's account occur in a 3-month timeframe. In order for the trader to receive this increase, they must generate at least 6% of net profit occurring monthly, consecutively for 3 months. Please note, that the trader's account needs to be higher than the initial account balance (accounting only for profit) at the time of the incremental increase.

A trader's eligibility to increase is evaluated on an automatic basis. This means that upon successful completion of the timeframe, each VITTAVERSE Trader can (through messaging the support team) request an increase to their account by way of dollar deposit.

Trading Challenge Scaling Plan
